Introduction

Scope and Purpose

Ratethosememes.com was designed as a website where users could share and rate images in a social media setting.

This user guide will hopefully direct a new user towards the proper use of Ratethosememes.com and teach how to create/manage their account and how to start uploading and rating memes.

Website Overview

Rating memes. Users will create user accounts with email validation. Users will then be able to login and be able to upload their own memes and rate other user's memes. User's profile information will be stored in a SQL database that they can update at any time. Also, all ratings (likes and dislikes) will be stored in a SQL database which will give the site the ability to rate memes on time frames.

1 [User Account Creation]

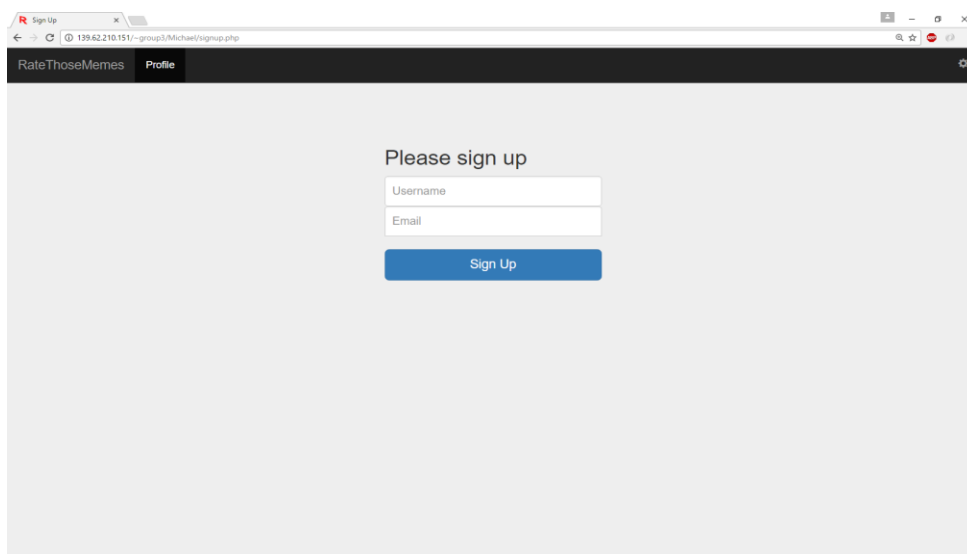

New Users will be able to create their own accounts using “Ratethosememes.com” login page. Having their own account will allow the user to both upload images of img. Png and Jpeg file types and rate the images using the like and dislike function buttons.
